Cook County - Chicago/Paxton Landfill Corporation #2
Permit # 1978-10-OP
Supplemental Permit # 80-751

EPA Region 5 Records Ctr.

261577

March 19, 1980

Mr. Steve Martell
Paxton Landfill Corporation
12201 South Oglesby
Chicago, Illinois 60633

Dear Mr. Martell:

Supplemental Permit is hereby granted to Paxton Landfill Corporation and Steve Martell, President, to operate in the initial section of Trench B, Parcel 1 only of their facility described in the September 21, 1978 Permit # 1978-10-OP, all in accordance with the attestation and narrative prepared by J. Douglas Andrews, P.E. dated February 25, 1980 and received by this Agency on February 26, 1980.

The permit is issued subject to the standard conditions set forth on page 2, attached hereto and incorporated herein by reference, and further subject to the following special conditions.

1. A sand lens was noted high on the north trench wall. After several lifts have been placed, so that the elevation of the trench floor has been raised, the exposed sand lens shall be adequately sealed with a ten foot thick compacted clay seal of the Valparaiso or Park Ridge glacial till sequence.
2. You can expect to receive in the next few days a letter from the Hydrogeology Unit of this Division listing the details of the monitoring program in connection with this Permit.
3. This Agency reserves the right to require installation of additional monitoring devices, to alter the selection of parameters to be analyzed and to alter monitoring frequencies as may be necessary to fulfill the intent of the Environmental Protection Act.

Sincerely,

Thomas E. Cavanagh, Jr., Manager
Land Permit Section
Division of Land/Noise Pollution Control
